Introduction

This is the third cumulated update of a bibliography originally prepared in early 1974 at the request of Dr. S. B. Smith, Chairman, Research Secretariat, Alberta Department of the Environment.

Our original intent was to have a complete listing of all reports relating to the socio-economic and environmental aspects of the Fort McMurray area. Although this is still regarded as a very desirable aim, the compilers feel that at present it is not as comprehensive as originally envisioned. However, the bibliography has continued to grow quickly, and there are now over 800 items listed.

Please note that the "Geology" section contains only very selective references. Also, the "Historical Background Material" section includes a selective listing of early Geological Survey of Canada reports and other early studies. These items give a general description of the area including topography and climate, as well as the hydrological and geographical features.

We would like to draw your attention to three ongoing newsletters published by Syncrude Canada and Great Canadian Oil Sands. They are Syncrude Environment, Syncrude Progress Review, and Great Canadian Oil Sands News. These contain articles of company activities, which would provide a worthwhile overview.

With this issue we have added sections on "Social Aspects"; "Settlement, Mobility and Population"; and "Municipal Engineering" under Socio-Economic Studies of the Fort McMurray Area; and "Invertebrates" under Environment Studies. Some of these items appeared in other sections of the bibliography previously, and have now been moved to a more appropriate area.

With this issue we have added sections on "Social Aspects"; Settlement, Mobility and Population"; and "Municipal Engineering" under Socio-Economic Studies. Some of these items appeared in other sections of the bibliography previously, and have now been moved to a more appropriate area.

References are only cited once e.g. if an item deals with both air and water pollution, it could be located in either "Air Pollution - General" or "Water Quality and Pollution, " depending on which subject area has received the greater emphasis.

All items pertaining to Cold Lake, Peace River and Wabasca Oil Sands appear together in the last section.

Please note that with this edition we are indicating those reports held by the Alberta Environment Library. This is shown by means of an asterisk beside the title in the title index. Exceptions are the "Applications by Industry to the Government of Alberta" listed on pages 66 to 71. Since the titles are not significant, they are not included in the title index. Also, because journals are readily available, it was felt unnecessary to extend this marking to include articles.

Since this edition supercedes all others, it is advisable to discard all previous editions.

It would be appreciated if any omissions from this bibliography could be brought to the attention of the compilers for inclusion in future updates.

Housing construction planned for three new subdivisions.
Syncrude Progress Review, Spring 1976, p. 3.

Housing options open to all. Great Canadian Oil Sands News, V. 9, No. 1, May 1976, p. 1.

New Town of Fort McMurray.

Need and demand report for public housing in the New Town of Fort McMurray. Prepared for Central Mortgage and Housing Corporation, 1966.
1 v.

7. Education.

Donald L. Pinckston Architect Ltd.

Keyano College: schematic design phase - new facilities - phase 1. Prepared for Alberta. Dept. of Housing and Public Works, and Alberta. Dept. of Advanced Education and Manpower. Edmonton, Feb. 1976.
23 p. illus.

Ekistic Design Consultants Ltd.

Education planning for Northeast Alberta: research and analysis on requirements, trends, and projections. By M. L. Marino. Edmonton, June 1975.
122 p. illus., tables.

Fort McMurray School District No. 2833, and Fort McMurray
Jr. H. Separate School District No. 32. Board of Trustees.
A summary of student enrolments with implications for high
school facility needs in Fort McMurray. Presented to the Board
of Administrators, The New Town of Fort McMurray. n.d.

5 p.

Two northeastern college developments announced. Business Life,
V. 2, No. 7, Nov./Dec., 1974, p. 79.

VIII. A. ENVIRONMENT STUDIES.

1. Vegetation.

Preliminary lichenology study underway. Syncrude Environment,
Summer 1975, p. 4.

Renewable Resources Consulting Services Ltd.

Phase I - vegetation. Prepared for Ekistic Design Consultants
Ltd. Edmonton, Oct. 1974.

34 p. illus., maps (part fold.)

Renewable Resources Consulting Services Ltd.

Vegetation characteristics in northeastern Alberta. Prepared for
Ekistic Design Consultants Ltd. Edmonton, Feb. 1975.

40 p. illus.

Vegetation needed for oil sands.

Canadian Environmental Control Newsletter, No. 73, April 6, 1976,
p. 675.

2. Forests and Forestry.

Alberta. Department of Lands and Forests.

Forest Cover Maps (Fort McMurray area). Management Units.
A5 & A7. Edmonton, 1973.

Alberta. Department of Lands and Forests.

Timber Management Branch.

Preliminary management plan of the Athabasca Tar Sands area.
Edmonton, April, 1973.

28 p., appendices.

Alberta. Forest Service. Forest Survey, and Planning Branch.
Forest resources and timber production in Census Division 12
for fiscal years 1960-67. Edmonton, 1967?
26 p. tables.

Ekistic Design Consultants Ltd.

A review of timber management within the Northeast Alberta region.
By D. N. Lewis. Edmonton, May 1975.
36 p.

3. Hydrology.

Alberta. Task Force on Oil Sands Hydrological Research.

Alberta oil sands hydrological research. Edmonton, Alberta.
Prepared by the Alberta. Conservation and Utilization Committee.
Oil Sands Hydrological Research Task Force. Edmonton, submitted
to Alberta Department of the Environment. 1974.
14 p. map (fold in pocket).

Alberta. Task Force on Oil Sands Hydrological Research.

Hydrological research needs for the Alberta Oil Sands. Appendices.
Edmonton, 1974.

97 p. illus., maps (part fold. in back pocket).

Appendices to report Alberta oil sands hydrological research.

T. Blench & Assoc. Ltd.

Spring breakup at Fort McMurray, 1965. Co-ordination by Stanley,
Grimble, Roblin Ltd. Prepared for the New Town of Fort McMurray.
Board of Administrators. Edmonton, June 1965.

27 p. illus., map (fold. at back).

Cover title: Spring breakup, 1965, Athabasca River at Ft. McMurray.

Bradley, G. M.

Preliminary biological survey of six lakes in northern Alberta.
Edmonton, Alberta. Dept. of Lands and Forests, 1969.

114 p. (Alberta. Fish and Wildlife Division Survey Report No. 15).
Includes Gregoire Lake.

E. W. Brooker & Associates Ltd.

Preliminary evaluation of groundwater conditions in the mining
area: progress report. Prepared for Syncrude Canada Ltd. n.p.,
March 1972.

13 p. illus. (part fold.)

Cover title: Commercial plant development soil & foundation
engineering.

How will the Syncrude Project affect the streams and lakes of the tar
sands region. Edmonton, Syncrude Canada Ltd., 1973.

7 p. booklet, illus. (col.).

Kellerhals, R.

Hydraulic and geomorphic characteristics of rivers in Alberta by R. Kellerhals, C. R. Neill, D. I. Bray. Edmonton, Research Council of Alberta, 1972.

iv, 52 p. illus, maps (Its River Engineering and Surface Hydrology Report 72-1).

L. G. L. Environmental Research Associates.

(R. Kellerhals).

Preliminary hydrological investigation of Crown Lease 17 in the Athabasca Tar Sands. Prepared for Syncrude Canada Ltd. Edmonton, 1973.

(To be Environmental Research Monograph 1973-6).

Laycock, Arleigh H.

Water problems in Alberta oilsands development. Reprinted from American Water Resources Association Proceedings No. 18, June 1974.

p. 184-200, illus., map.

Leggette, Brashears & Graham.

1974 aquifer test program at Syncrude Mildred Lake Project and initial plan for depressurizing basal water sands in commercial mine. Prepared for Canadian Bechtel Ltd. New York, 1974.

2 v. illus. (part fold.)

Neill, C. R.

Selected characteristics of streamflow in Alberta by C. R. Neill and others. Edmonton, Research Council of Alberta, 1970.

ix, 55 p. illus, tables (Its River Engineering and Surface Hydrology Report 70-1).

Northwest Hydraulic Consultants Ltd.

Athabasca River summary of ice observations for proposed Crooked Rapids Dam. I. Winter ice and spring break-up observations-1974 data report. Prepared for Thurber Consultants Ltd. Edmonton, Oct. 1974.

1 v. (various pagings) illus. (Part col.), map.

Northwest Hydraulic Consultants Ltd.

Hydrological aspects of river basins in the northeast Alberta region. Prepared for Ekistic Design Consultants Ltd. Edmonton, 1975.

1 v. (unpaged) illus. (part in back pockets) tables.

Report concerns a formalized study area covering about 26,000 square miles, which has been organized under the Northeast Alberta Regional Plan Project.

Northwest Hydraulic Consultants Ltd.

A preliminary investigation of minimum flows of selected rivers in the Northeast Alberta region. Prepared for Ekistic Design Consultants Ltd. Edmonton, Feb. 1975.

1 v. (various pagings) illus., photos (col.), tables.

Northwest Hydraulic Consultants Ltd.

A preliminary investigation of minimum flows of selected rivers in the Northeast Alberta region: synthesis of hydrological data. Original report prepared by Northwest Hydraulic Consultants Ltd.

Synthesized by Ekistic Design Consultants Ltd. Edmonton, Feb. 1975.

21 p. illus., maps, tables.

Northwest Hydraulic Consultants Ltd.

Water resources study, sector 1. Prepared for Ekistic Design Consultants Ltd. Edmonton, Oct. 1974.

1 v. (various pagings) illus., maps, photos (col.) tables.

Northwest Hydraulic Consultants Ltd.

Working paper on probable hydrological impact of oil sands development. Prepared for Ekistic Design Consultants Ltd. Edmonton, June 1975.

26 p. illus.

Research Council of Alberta.

Groundwater observation well network: Athabasca Oil Sands area. Edmonton, 1976-

19 v. (loose-leaf) illus. (Research Council of Alberta. Information Series 69).

There will be one volume published for each of the 19 well sites during a two year period from 1976-1978. They will be updated periodically. Seven volumes have been published to date.

Synchrude Canada Ltd.

The hydrology of lease 17: a report on studies completed in the year 1973. Edmonton, 1976.

51 p. tables, illus. (Synchrude Canada Ltd. Environmental Research Monograph 1975-2).

Water Survey of Canada.

Surface water data; Alberta.

Ottawa, Canada Department of the Environment, Inland Waters Directorate, 1965-

annual

Continuation of hydrological data compiled by various federal agencies in several series dating back to 1909.

4. Power development.

Alberta. Dept. of the Environment. Planning Division.

Athabasca River power development - Crooked Rapids site study: summary. Edmonton, Apr. 1975.

16 p. illus. (part fold.) (Alberta Sessional Paper 523/75).

Tabled Nov. 13, 1975, by the Hon. D. J. Russell.

Athabasca River eyed as hydroelectric source. Environment News,

V. 3, No. 7, March/April 1974, p. 3.

Thurber Consultants Ltd.

Atlin-Barcelo River power development, Crooked Rapids Dam feasibility study. By Thurber Consultants Ltd., Crippen Engineering Ltd., and Northwest Hydraulic Consultants Ltd. Submitted to Alberta. Dept. of the Environment. Planning Division. Edmonton, March 1975.

2 v. illus. (part fold.), maps (Alberta. Sessional Paper 523/75). Tabled Nov. 13, 1975 by the Hon. D. J. Russell.

5. Soils and Soil Surveys.

E. W. Brooker & Associates Ltd.

Land use study, stage II - Fort McMurray. Prepared for Stanley Associates Engineering Ltd. n.p., March 1972.

67 p. illus., (part fold.)

At head of title: Soil and foundation conditions.

Crown, P. H.

Soils of the Fort McMurray Region, Alberta (Townships 88-89, Ranges 8-11) and their relation to agricultural and urban development.

By P. H. Crown and A. G. Twardy. Edmonton, University of Alberta, 1970 (edited 1975)

52 p. illus., maps (fold.) (Alberta Institute of Pedology M-70-2)

Geophoto Services Ltd.

Terrain analysis of bituminous sands lease no. 30. Prepared for Home Oil Co. Ltd. Calgary, Alberta, Sept. 1973.

Interim report only.

Greenlee, G. M.

Soil survey of Gregoire Lake Provincial Park and adjacent area and interpretation for recreational use. Edmonton, Alberta Institute of Pedology, 1974.

63 p. map (back pocket) (Alberta Institute of Pedology M-74-13).

R. M. Hardy & Associates Ltd.

Geotechnical evaluation, blocks 7, 8, 11 to 15, Waterways area, New Town of Fort McMurray, Alberta. Prepared for New Town of Fort McMurray. Edmonton, Jan. 1976.

1 v. (various pagings) illus. (part fold. in back pocket).

R. M. Hardy & Associates Ltd.

Geotechnical investigation T. C. L. Developments Ltd. Thickwood Heights subdivision, Fort McMurray, Alberta. Prepared for Underwood McLellan & Associates Ltd. n.p., December 1975.

1 v. (various pagings) illus. (part fold. in back pocket).

Hardy, R. M. and Associates Ltd.

Report R0: soil conditions at proposed new townsite, Fort McMurray, Alberta. Edmonton, June 1963.

Hardy, R. M. and Associates Ltd.

Sub-surface investigation of oil sands lease no. 30. Several reports prepared for Home Oil Co. Ltd., 1973-1974.

Interim report only.

Hermesh, Reinhard

A study of the ecology of the Athabasca sand dunes with emphasis on the phytogenic aspects of dune formation. Saskatoon, Sept. 1972.

152 p. illus., tables.

Thesis (M. Sc.) University of Saskatchewan.

Klohn Leonoff Consultants Ltd.

Area 1, geotechnical evaluation. Prepared for Cohos, Evamy & Partners. Calgary, Jan. 1975.

1 v. (various pagings) illus. plans (part fold. in pockets).

Klohn Leonoff Consultants Ltd.

Area 5A slope stability analysis. Prepared for Strong, Lamb & Nelson. Calgary, Jan. 1975.

1 v. (various pagings) illus. (part fold. in pockets).

Klohn Leonoff Consultants Ltd.

Area 5A subsoil and surface drainage investigation. Prepared for Strong, Lamb and Nelson. Calgary, Dec. 1974.

1 v. (various pagings) illus. (part fold. in pocket).

Klohn Leonoff Consultants Ltd.

Slope stability, area 6 outfall. Letter to Stanley Associates Engineering Ltd. Calgary, Aug. 1976.

3 p. illus., (part fold. in pockets)

Cover title: Slope stability area 6 storm sewer.

Klohn Leonoff Consultants Ltd.

Slope stability investigation area 6 outfall, Fort McMurray. Prepared for Stanley Associates Engineering Ltd. Calgary, Feb. 1976.

1 v. (various pagings) illus. (part fold. in pockets).

Cover title: Investigation of slope stability area 6 storm sewer.

Lindsay, J. D.

Exploratory soil survey of Alberta map sheets 74-M, 74-L, 74E, and 73-L, (north half) by J. D. Lindsay, S. Pawluk and W. Odynsky. Surface geology by L. A. Bayrock. Edmonton, Research Council of Alberta, 1963.

66 p. (Its Preliminary Soil Survey Report 63-1).

Lindsay, J. D.

Exploratory soil survey of Alberta; map sheets 84-P, 84-I, and 84H by J. D. Lindsay, S. Pawluk, and W. Odynsky; appendix, surface geology by L. A. Bayrock, Edmonton, Research Council of Alberta, 1962.

55 p. (Its Preliminary Soil Survey Report 62-1).

Lindsay, J. D.

Exploratory soil survey of 84-C (east half) 84-B, 84-A and 74-D by J. D. Lindsay, P. K. Heringa, S. Pawluk and W. Odynsky. Edmonton, Research Council of Alberta, 1957.

36 p. (Its Preliminary Soil Survey Report 58-1).

McCoy, D. A.

Spent oil-sand fertility study. By D. A. McCoy, H.F. Regier and D. N. Graveland. Edmonton, Alberta. Dept. of the Environment. Earth Sciences and Licensing Division, April, 1976.

32 p. tables.

Regier, H. F.

Oil sand overburden characterization within the mine area of Syncrude Lease No. 17 for reclamation of spent oil sand. Edmonton, Alberta. Dept. of the Environment. Earth Sciences and Licensing Division, June 1976.

29 p. illus., tables.

Ripley, Klohn & Leonoff International Ltd.

Geotechnical studies, Area 1, Fort McMurray, Alberta. Prepared for Cohos, Delesalle and Evamy. Calgary, Sept. 1973.

43 p. illus. (part fold. in back pocket).

Ripley, Klohn and Leonoff International Ltd.

Subsoil investigations for roads and utilities, area 6, Fort McMurray. Calgary, prepared for Cohos, Evamy and Partners Ltd. 1974.

2 v. tables. Volume 2: Blueprints (fold pockets).

The Sibbald Group.

Soils and vegetation in the Syncrude and Great Canadian Oil Sands Leases: a report prepared for Syncrude Canada Ltd. Based upon Machair Surveys Ltd. aerial photographs. Calgary, 1973.

9 p.

1. Wildlife.

Alberta. Department of Lands and Forests. Fish and Wildlife Division.
Athabasca Tar Sands Development area - Wildlife. Prepared for Alberta
Department of the Environment. Edmonton, 1972.
14 p.

Alberta. Environment Conservation Authority.
Review of interaction between migratory birds and Athabasca Oil
Sands tailings ponds: report and recommendations. Edmonton,
Sept. 1975.
43 p. photos (col.), maps (Alberta. Sessional Paper 522/75).
Tabled Nov. 13, 1975 by the Hon. D. J. Russell.

Bibaud, J. A.
Fort McMurray ungulate survey of the minable portion of the
bituminous (tar) sands area. (Number 1). Edmonton, Alberta. Dept.
of Lands and Forests. Fish and Wildlife Division, Nov. 1972.
10 p. illus.

Bibaud, J. A.
Fort McMurray ungulate survey of the minable portion of the
bituminous (tar) sands area. (Number 2). By J. A. Bibaud and Tom
Archer. Edmonton, Alberta. Dept. of Lands and Forests. Fish and
Wildlife Division, Feb. 1973.
12 p. illus.

Bibaud, J. A.
Fort McMurray ungulate survey on township lines. Edmonton, Alberta.
Dept. of Lands and Forests. Fish and Wildlife Division, Nov. 1972.
6 p. maps, tables.

Birds and Lease # 17. Syncrude Environment, Summer 1975, p.2-3.

Canada Land Inventory.

10. Applications by Industry to the Government of Alberta.
(Arranged chronologically)

Note: Because titles for these are not significant, they have not been included in the title index.

Great Canadian Oil Sands Limited.

Application for approval of a scheme for the recovery of 31,500 barrels per day of synthetic crude oil - June, 1960. (Athabasca Tar Sands), to the Alberta Oil and Gas Conservation Board. Hearing No. 167.

Alberta. Oil and Gas Conservation Board.

Report to the Lieutenant Governor in Council with respect to the application of Great Canadian Oil Sands Ltd. under Part VI A of the Oil and Gas Conservation Act. Calgary, 1960.

81 p. illus.

Cities Service Athabasca, Inc.

Application for the approval of a scheme or operation for the recovery of oil or a crude hydrocarbon product from oil sands - May, 1962, to the Alberta Oil and Gas Conservation Board. Application No. 957.

Great Canadian Oil Sands Limited.

Application for approval of a scheme for the recovery of 31,500 barrels per day of synthetic crude oil - June, 1962 (from oil sands of lease # 4 in the Bituminous sands area of Alberta), to the Alberta Oil and Gas Conservation Board. Hearing No. 205A.

Alberta. Oil and Gas Conservation Board.

Supplemental report to the Lieutenant Governor in Council with respect to the application of Great Canadian Oil Sands Ltd. under Part VI A of the Oil and Gas Conservation Act. Calgary, September 1962.

1 v. various pagings (OGCB Report 62-7).

Cities Service Athabasca, Inc.

Application for approval of a scheme or operation for the recovery of oil or a crude hydrocarbon product from oil sands - September, 1962, to the Alberta Oil and Gas Conservation Board. Application No. 957.

Shell Canada Ltd.

Application No. 1116 for approval of a recovery scheme for operation to the Alberta Oil and Gas Conservation Board. 6 September, 1962.

Shell Oil Company of Canada, Limited

Application for the approval of a scheme or operation for the recovery of oil or a crude hydrocarbon product from oil sands - September, 1962, to the Alberta Oil and Gas Conservation Board. Hearing No. 220.

Alberta. Oil and Gas Conservation Board.

Report to the Lieutenant Governor in Council with respect to the applications of Cities Service Athabasca Inc. and Shell Canada Ltd. under Part VI A of the Oil and Gas Conservation Act. Calgary, October, 1963.

1 v. various pagings (OGCB Report 63-8).

Great Canadian Oil Sands Limited.

Application for amendment of Approval No. 540 to permit the production of 45,000 barrels per day of synthetic crude oil - November, 1963, to the Alberta Oil and Gas Conservation Board. Hearing No. 240.

Alberta. Oil and Gas Conservation Board.

Report of an application of Great Canadian Oil Sands Ltd. under Part VI A of the Oil and Gas Conservation Act. Calgary, February, 1964.

1 v. various pagings (OGCB Report 64-3).

Atlantic Richfield Company, Cities Service Athabasca, Inc.

Imperial Oil Ltd. and Royalite Oil Co. Ltd.

Application for approval of a scheme or operation for the recovery of 80,000 barrels/day of crude hydrocarbon product from oil sands: Mildred Lake area of the Athabasca oil sands deposit. 1962, Amended to May 1968, to the Alberta Oil and Gas Conservation Board. Application No. 4000.

Muskeg Oil Company.

Application for the approval of a scheme for the In-situ recovery of oil and crude hydrocarbon product from certain oil sands in the Province of Alberta - October, 1968, to the Alberta Oil and Gas Conservation Board. Application No. 4301.

Alberta. Oil and Gas Conservation Board.

Report of an application of Atlantic Richfield Co., Cities Service Athabasca, Inc., Imperial Oil Ltd., and Royalite Oil Co. Ltd. under Part VI A of the Oil and Gas Conservation Act. Calgary, December, 1968.

1 v. (OGCB Report 68-C).

Submission in the matter of the Oil and Gas Conservation Act. being Chapter 63 of the Statutes of Alberta, 1957 and in the matter of an application by Muskeg Oil Company from certain oil sands underlying Gregoire Lake Indian Reserve No. 176. Calgary, January 13, 1969.

11 X ,

Includes submission and evaluation of present Indian Band Status.

Atlantic Richfield Company, Cities Service Athabasca Inc., Imperial Oil Ltd. and Royalite Oil Co. Ltd.

Further amendment of Application 1223 for approval of a scheme for the recovery of oil sands, crude bitumen or products derived therefrom (Mildred Lake Area), May, 1968 - March, 1969, to the Alberta Oil and Gas Conservation Board. Application No. 4502.

Alberta. Oil and Gas Conservation Board.

Supplement to the Report of an application of Atlantic Richfield Co., Cities Service Athabasca, Inc., Imperial Oil Ltd., and Royalite Oil Co. Ltd. under Part VI A of the Oil and Gas Conservation Act. Calgary, March, 1969.

1 v. various pagings. (OGCB Report 69-B).

Alberta. Oil and Gas Conservation Board.

Report of an application of Atlantic Richfield Co., Cities Service Athabasca, Inc., Imperial Oil Ltd. and Royalite Oil Co. Ltd., Calgary, September, 1969.

1 v. various pagings (OGCB Report 69-C).

Atlantic Richfield Canada Ltd., Canada-Cities Service Ltd., Gulf Oil Canada Ltd. and Imperial Oil Ltd.

For amendment of Approval No. 1223 - for technical changes and a rate of production of 125,000 barrels/day, Mildred Lake area of the Athabasca Oil Sands deposit, August, 1971, to the Alberta Energy Resources Conservation Board. Application No. 5849.

Alberta. Energy Resources Conservation Board.

In the matter of an application of Atlantic Richfield Canada Ltd., Canada-Cities Service Ltd., Gulf Oil Canada Ltd. and Imperial Oil Ltd. under Part 8 of the Oil and Gas Conservation Act. Calgary, December, 1971

1 v. various pagings (ERCB-71-F-OG).

Great Canadian Oil Sands Ltd.

Application to amend approval No. 540 to dispose of wastes in the Ruth Lake Basin, Mildred-Ruth Lake area of the Athabasca oil sands deposit, 22, July, 1972, to the Alberta Energy Resources Conservation Board. Application No. 6527.

Great Canadian Oil Sands Ltd.

Amendment of Approval No. 540 to increase authorized rate of production to 65,000 BPD, Mildred-Ruth Lake area of the Athabasca oil sands deposit, November, 1972, to the Alberta Energy Resources Conservation Board. Application No. 6628.

Atlantic Richfield Co., Canada-Cities Service Ltd., Gulf Oil Canada Ltd. and Imperial Oil Ltd.

Application for approval of the power plant, Mildred Lake area of the Athabasca Oil Sands deposit, January, 1973, to the Alberta Energy Resources Conservation Board. Application No. 6888.

Atlantic Richfield Co., Canada-Cities Service Ltd., Gulf Oil Canada Ltd. and Imperial Oil Ltd.

Application for process design changes, January, 1973, to the Energy Resources Conservation Board. Application No. 6889.

Alberta. Energy Resources Conservation Board.

In the matter of an application of Atlantic Richfield Canada Ltd., Canada-Cities Service Ltd., Gulf Oil Canada Ltd. and Imperial Oil Ltd., under Part 8 of the Oil and Gas Conservation Act. and under Section 7 of the Hydro and Electric Energy Act. Calgary, 1973.

1 v. various pagings (ERCB-73-K-HE-OG).

Shell Canada Ltd.

Application of Shell Canada Limited and Shell Explorer Limited to the Energy Resources Conservation Board. Calgary, June 1973. ix, 93 p. illus., tables.

Calgary Power Ltd.

Submission with respect to Application No. 6880 (to Energy Resources Conservation Board) by Alberta Power Limited for a permit to construct and a license to operate a transmissionline from Mitsue to Mildred Lake, Calgary, Aug. 1973.

40 p. illus., maps (part fold. at back).

Shell Canada Ltd. and Shell Explorer Ltd.

Oil sands Fort McKay area application No. 7184; proceedings held for the purpose of hearing representations respecting an application of Shell Canada Ltd. and Shell Explorer Ltd. at the Court House, Calgary, October 9-12, 1973. Calgary, Calgary Court Reporters, 1973.

3 v.

Alberta. Energy Resources Conservation Board.

In the matter of an application of Great Canadian Oil Sands Ltd. under Part 8 of the Oil and Gas Conservation Act. Calgary, 1973.

1 v. various pagings (ERCB-73-N-OG).

Alberta. Energy Resources Conservation Board.

In the matter of an application of Alberta Power Limited respecting a transmission line from Mitsue to the Syncrude Mildred Lake project, February, 1974. Calgary.

1 v. various pagings. Alberta. Energy Resources Conservation Board Report 74-C.

Alberta. Energy Resources Conservation Board.

Report to the Lieutenant Governor in Council in the matters of an application of Shell Canada Ltd. and Shell Explorer Ltd. under Part 8 of the Oil and Gas Conservation Act. Calgary, April, 1974.

1 v. various pagings. (ERCB 74-H).

Alberta. Energy Resources Conservation Board.

Report to the Lieutenant Governor in Council in the matter of an application of Shell Canada Ltd. & Shell Explorer Ltd. under Part 8 of the Oil and Gas Conservation Act. (Addendum to ERCB Report 74-H). Calgary, May, 1974.

1 v. various pagings. (ERCB 74-HA).

Alberta. Energy Resources Conservation Board.

Report to the Lieutenant Governor in Council in the matter of an application of Petrofina Canada Ltd., Pacific Petroleum Ltd., Hudson's Bay Oil and Gas Co. Ltd., Murphy Oil Co. Ltd., and CanDel Oil Ltd., under Part 8 of the Oil and Gas Conservation Act. Calgary, Dec. 1974.

1 v. (various pagings) illus., tables. (Alberta. Energy Resources Conservation Board. Report 74-X).

Alberta. Energy Resources Conservation Board.

Report to the Lieutenant Governor in Council in the matter of an application of Petrofina Canada Ltd., Pacific Petroleum Ltd., Hudson's Bay Oil and Gas Co. Ltd., Murphy Oil Co. Ltd., and CanDel Oil Ltd., under Section 7 of the Hydro and Electric Energy Act. Calgary, Dec. 1974.

1 v. (various pagings) illus., tables. (Alberta. Energy Resources Conservation Board. Report 74-Y).

Alberta. Energy Resources Conservation Board.

Report to the Lieutenant Governor in Council in the matter of an application of Home Oil Company Limited and Alminex Limited under Part 8 of the Oil and Gas Conservation Act. Calgary, May 1975.

1 v. (various pagings) illus., tables (Alberta. Energy Resources Conservation Board. Report 75-H).

Application by Alberta Power Ltd. to Energy Resources Conservation Board re: proposed Mildred Lake substation 719 S (E ½-5-93-10-W4). n.p., July 1975. 1 v. (various pagings).

11. Pollution - Monitoring.

Synchrude Canada Ltd.

Remote sensing and the Athabasca Tar Sands; an overview. Edmonton, 1974.

47 p. (Its Environmental Research Monograph 1974-1).

Moschopedis, S. E.

Sulfomethylated humic acid products as soil conditioners and fertilizers for restoration of Athabasca Oil Sand mining area. By S. E. Moschopedis and Dave L. Mitchell. Excerpt from Workshop on Reclamation of disturbed lands in Alberta: proceedings, March 27-28, 1974. Edited by Drake Hocking and William R. MacDonald. Edmonton, Alberta. Dept. of the Environment, 1974.

10 p.

Oil sands regulations for Alberta. Eco/Log Week, V. 4, No. 32, Aug. 16, 1976, p.4.

Radvanyi, Andrew

Harmful small mammals - an unanticipated problem in the Alberta Oil Sands reclamation program. Edmonton, Canadian Wildlife Service, March 1976.

76 p. illus., mylar overlays, photos.

Revegetation. Syncrude Environment, V. 2, No. 3, 1974, p. 1.

Revegetation commences. Syncrude Progress Review, Fall 1976, p. 8.

Revegetation projects reclaim land. Great Canadian Oil Sands News, V. 9, No. 3, Aug. 1976, p. 4-5.

Revegetation study aims at land reclamation; oil sands large concern in multi-year study. Environment News, V. 3, No. 7, 1974, p. 4-6.

Syncrude Canada Ltd.

Revegetation: species selection-an initial report. Edmonton, 1974.

47 p. illus. (col.) tables (Syncrude Canada Ltd. Environmental Research Monograph 1974-3) (Alberta. Sessional Paper 506/75).

Thirgood, J. V.

Land reclamation must follow land disturbance. Canadian Mining Journal, V. 39, No. 12, December 1972, p. 33-34.

Vaartnou, H.

Establishment and survival of ground cover plantings on disturbed areas in Alberta: Phase I. By A. Vaartnou, and G. W. Wheeler. Edmonton, Alberta. Dept. of Agriculture. Plant Industry Laboratory, 1973-1974.

5 v. illus., tables.

Contents: v.1. Revegetation of disturbed sites such as pipelines, cutlines and stripmining areas.-v.2. Revegetation of disturbed sites such as powerline rights-of-way and strip mines.-v.3. Revegetation of roadsides.-v.4. Soils.-v.5. Final report of Phase I.

Vaartnou, H.

Establishment and survival of ground cover plantings on disturbed areas in Alberta: Phase II. By A. Vaartnou, and G. W. Wheeler. Edmonton, Alberta. Dept. of Agriculture. Plant Industry Laboratory, 1975-

v. illus., tables.

Library has: 1974,

Weston, Stan

Report on developments and progress in reclaiming waste dumps and tailing ponds. Western Miner, V. 46, No. 8, Aug. 1973, p. 29-37.

IX. COLD LAKE, PEACE RIVER, AND WABASCA OIL SANDS.

Alberta. Dept. of Mines and Minerals.

Return ordered by the assembly re: leases by the energy companies in the tar sands area, Cold Lake and Peace River area.

30 p.

Sessional paper 134/74. Tabled 1974 by the Hon. Bill Dickie.

Includes specimen copy of Oil Sands Lease.

Alberta. Energy Resources Conservation Board.

Geology and proved place reserves of the Cold Lake Oil Sands Deposits. Calgary, 1973.

1 v. various pagings. (ERCB 73- Geol).

Alberta. Energy Resources Conservation Board.

Geology and proved in place reserves of the Peace River oil sands deposit, Calgary, 1974.

24 p. (Its Report 74-R).

Boyce, Conrad

The Peace River oil sands. People, Plans and the Peace, V. 2, No. 11, Nov. 1975, p. 8-9.

Canada's largest oil deposit moves another notch closer to marketing. Saint John's Edmonton Report, V. 2, No. 21, April 28, 1975, p. 26. Re: Peace River Oil Sands.

Cold Lake oil sands: Japanese participation. Environmental Engineering Newsletter, V. 6, No. 2, Feb. 1976, p. 1.

Dillabough, J. A.

Recovering bitumen from Peace River deposits. By J. A. Dillabough and M. Prats. Oil & Gas Journal, V. 72, No. 45, Nov. 11, 1974, p. 186-198.

Ekistic Design Consultants Ltd.

A brief synopsis of the Wabasca Oils Sand Deposit characteristics. By Olga M. Lovatt. Edmonton, March 1975.
8 p. illus., tables.

Environmental management in the Cold Lake oil sands. Intera Quarterly News, V. 1, No. 1, January 1976, p. 3.

Heavy oil project by Chev Standard. Oilweek, V. 26, No. 18, June 16, 1975, p. 20.
Re: Cold Lake.

Humphreys, Vic.

A heavy hand on heavy oil. Editorial by Vic Humphreys. Oilweek, V. 27, No. 42, Nov. 29, 1976, p. 3.

In situ effort gaining momentum.

Energy Processing/Canada, V. 68, No. 1, Sept.-Oct. 1975, p. 44-46.
Re: Cold Lake.

A Japanese/Cdn steam play at Cold Lake. Energy Analects, V.4, No. 50, Dec. 19, 1975, p.4.

Lloydminster's oil is hard to drill out, but there's more of it than was estimated. Saint John's Edmonton Report, V. 3, No. 47, Oct. 25, 1976, p. 25 + (2p.)

Lynett, Steve.

Cold Lake. Imperial Oil Review, V. 58, No. 1, 1974, p. 2-7.

Minister surveys heavy oil fields. Oilweek, V. 27, No. 35, Oct. 11, 1976, p. 16.

New Cold Lake pilot onstream. Oilweek, V. 26, No. 35, Oct. 13, 1975, p. 58-59.

165 million barrels in Cold Lake. Oilweek, V. 24, No. 33, Oct. 1, 1973, p. 5.

Pamenter, Bev.

Pilot last step in Imperial's quest for Cold Lake oil production. Oilweek, V. 22, No. 26, Aug. 16, 1971, p. 24-26.

Peace River heavy oil plan mothballed by Shell Canada?
Oilweek, V. 25, No. 46/47, Dec. 30, 1974/Jan. 6, 1975,
p. 7.

Peace River: oil sands centre will be ready.
By Donna Telford. Business Life, V. 3, No. 3, p. 75.

Peace River Regional Planning Commission.
The Peace River Oil Sands. Grande Prairie, Nov. 1975.
12 p. illus. (Peace River Regional Planning Commission. Special
Information Report No. 4).
Cover title: People, plans and the Peace.

Problems of in-situ recovery of heavy-oil deposits. Western Miner,
V. 49, No. 10, Oct. 1976, p. 51 + (3p.).

Reaching the heavy oil. Imperial Oil Review, V. 59, No. 3, 1975,
p. 26-29.
Re: Cold Lake.

Shell moves on oil sands.
Oilweek, V. 24, No. 11, April 30, 1973, p. 5.
Re: Peace River Oil Sands.

XI. TITLE INDEX

Note: An asterisk indicates that this publication is held by the Alberta Environment Library. However, applications which are listed on p. 66-71 are not included because their titles are not significant. Also, because journals are readily available, it was felt unnecessary to extend this marking to include articles.

AESL faced with several challenges during 2½ year Syncrude plant design-----	p. 2
AOP is biggest investment yet in oil sands development-----	p. 2
*Accounting and audit review of Syncrude Canada Ltd.-----	p. 13
*Acute lethality study of G.C.O.S. dike filter drainage using rainbow trout and brook sticklebacks-----	p. 81
Adult training for employment opportunities in northern Alberta....	p. 42
After losing \$96 million, GCOS finally making a profit-----	p. 2
Agreements aid native Syncrude employees-----	p. 27
Agriculture, Census Division 12-----	p. 24
Air monitoring surveys G.C.O.S. trailer site-----	p. 76
*Air pollution impact on townsite selection-----	p. 76
Alberta due 50% of Syncrude tar-sands profits -----	p. 3
Alberta facts and figures, 1954-----	p. 24
Alberta group accuses government of suppressing health hazards reports-----	p. 73
Alberta industry and resources -----	p. 24, 25
Alberta is 'best protected' in Syncrude-----	p. 3
Alberta jubilant over signing of Syncrude agreement-----	p. 3
*Alberta north-----	p. 20
*Alberta oil sands (Canada. Dept. of Energy, Mines and Resources)----	p. 5
Alberta oil sands (Hendrickson)-----	p. 9
*Alberta oil sands climatological and meteorological research-----	p. 71, 73
*Alberta oil sands corridor study-----	p. 65
Alberta oil sands developing slowly with emphasis on in situ methods	p. 3
Alberta Oil Sands Environmental Research Program (AOSERP)-----	p. 57
Alberta Oil Sands Environmental Research Program Newsletter-----	p. 57
*Alberta oil sands facts and figures-----	p. 2
Alberta oil sands: fuel of the future-----	p. 6
*Alberta oil sands government organization chart-----	p. 2
*Alberta oil sands hydrological research-----	p. 45
Alberta oil sands map detailing leases, plant locations and in situ projects-----	p. 17
*Alberta oil sands project impact assessment-----	p. 60
*Alberta oil sands reclamation research-----	p. 88
*Alberta oil sands recovery plants....	p. 81
*An Alberta oil sands status report-----	p. 3
*The Alberta oil sands story-----	p. 3
*Alberta oil sands townsite study-----	p. 31
Alberta orders study of tar sands ecology-----	p. 57
Alberta seeks in situ oil sands schemes-----	p. 83
Alberta starts study of sands environment-----	p. 62
The Alberta tar (oil) sands-----	p. 15
Alberta tar-sand plant gets go-ahead-----	p. 3
The Alberta tar sands-----	p. 10

Alberta threatened with air pollution suit-----	p. 74
Alberta will study tar sands corridor-----	p. 62
Alberta's Athabasca oil sands: a Canadian perspective -----	p. 5
Alberta's bituminous sands industry -----	p. 13
Alberta's new towns act, the case of Fort McMurray-----	p. 36
*Alberta's oil sands in the energy supply picture -----	p. 8
Alberta's oil sands regain momentum...-----	p. 4
*An analysis of the three plant scenario-----	p. 63
Anhydrous extraction of hydrocarbons-----	p. 86
*Annotated bibliography of geology of the sedimentary basin of Alberta...-----	p. 1
*Anzac: a community profile-----	p. 21
AOSERP takes water samples -----	p. 79
AOSTRA - Getting its head into the sands-----	p. 4
Applications (arranged chronologically)-----	p. 66-71
*An approach to biological resource assessment-----	p. 53
*Approach to cost comparisons between Ft. McMurray and a new townsite... p. 30	
*Approach to elucidation of air pollution impact at potential townsites ... p. 76	
*Archaeology in Alberta, 1975-----	p. 20
*Area 1, geotechnical evaluation-----	p. 49
*Area 4 development study, Fort McMurray Alberta: preliminary report- p. 35	
*Area 5A slope stability analysis -----	p. 49
*Area 5A subsoil and surface drainage investigation -----	p. 49
Assembly line techniques are being employed on huge Syncrude project-p. 4	
*Assessment of potential townsite locations-----	p. 30
*Assessment of trees, shrubs and seedlings on G.C.O.S. oil lease, 1974- p. 89	
At last; the oil sands economically viable-----	p. 15
Athabasca adventure - oil sands plant offers career jobs-----	p. 41
*The Athabasca Oil Sands -----	p. 7
The Athabasca Oil Sands and future energy needs-----	p. 9
*Athabasca Oil Sands bibliography 1789-1964-----	p. 1
*Athabasca Oil Sands Conference (1951)-----	p. 4
Athabasca oil sands development transportation study-----	p. 65
*Athabasca Oil Sands index -----	p. 1
Athabasca Oil Sands Study raises planning questions-----	p. 30
Athabasca plant opening still set for 1978-----	p. 4
Athabasca River eyed as hydroelectric source-----	p. 47
*Athabasca River oil spill -----	p. 82
*Athabasca River power development, Crooked Rapids Dam feasibility study-----	p. 48
*Athabasca River power development - Crooked Rapids site study: summary.-----	p. 47
*Athabasca River summary of ice observations for proposed Crooked Rapids Dam-----	p. 46
*Athabasca River water survey, July 8, 1968-----	p. 78
*Athabasca River water survey, July 29, 1968-----	p. 78
*Athabasca River water survey, August 8, 1968 -----	p. 78
*Athabasca Tar Sand development area - Wildlife-----	p. 51
The Athabasca Tar Sands (Gray)-----	p. 8
The Athabasca tar sands(Kariel)-----	p. 10
The Athabasca Tar Sands (McConville)-----	p. 11
*The Athabasca Tar Sands as a source of crude oil-----	p. 11
*Athabasca Tar Sands corridor study-----	p. 65

*Athabasca tar sands development: environmental impact statement matrix-	p.56
Athabasca Tar Sands-future energy source-----	p. 4
*Athabasca Tar Sands gathering system study-----	p. 65
*Athabasca Tar Sands Project. Fisheries section. Mapsheets-----	p. 51
*Athabasca Tar Sands Project. Waterfowl Section. Mapsheets-----	p. 51
*Athabasca Tar Sands Project. Wildlife Section. Mapsheets-----	p. 51
Athabasca Tar Sands Study-----	p. 87
*Average annual water surplus in Canada-----	p. 72
*The B-12 plan: an outline for rural development...-----	p. 24
Background to the tarsands development -----	p. 7
*Baseline environmental studies of Ruth Lake and Poplar Creek-----	p. 60
*Basic information on the Syncrude Project...-----	p. 16
*Beaver Creek: an ecological baseline survey-----	p. 61
*The Beaver Creek site-----	p. 20
Biggest sellout in history...-----	p. 8
The billion dollar Syncrude project in full swing-----	p. 5
A biological investigation of the Athabasca-MacKenzie region-----	p. 19
*A biological investigation of the Athabasca River oil spill-----	p. 83
The biology of the Arctic grayling in the Southern Athabasca drainage-----	p. 55
*Biophysical analysis and evaluation of capability, Ft. McMurray- Gregoire Lake area-----	p. 58
Birds and Lease No. 17-----	p. 51
*The bituminous sands of Alberta-----	p. 6
Bituminous sands of northern Alberta; occurrence and economic possibilities...-----	p. 18
*Boiler house stack survey G.C.O.S. Fort McMurray...-----	p. 77
The book that spilled Syncrude's secrets...-----	p. 5
The boom takes hold at Fort McMurray-----	p. 5
Booming Alberta may drain nation's worker reservoir-----	p. 41
Boost eyed for Canada's tar sand, heavy oil-----	p. 5
*A brief synopsis of the Wabasca Oils Sand Deposit characteristics--	p. 92
Bucketwheel rock watching-----	p. 83
*Calculation of Albertans' share of profits from Syncrude Project---	p. 7
*Canada-Alberta agreement for the Alberta Oil Sands Environmental Research Program 1975,...-----	p. 56
Canada should develop oil sands now hundreds of years supply in Athabasca-----	p. 5
Canada's largest oil deposit moves another notch closer to marketing-	p. 91
*Canadian index to geoscience data; Alberta-----	p. 1
The Canadian tar sands-----	p. 15
Canadian weather review-----	p. 71
Changes in air pollution regulations will force modifications...---	p. 74
*Characterization of wastewaters from the Great Canadian Oil Sands...-	p. 81
Chemical cold water separation tested for oil sands-----	p. 84
*Choice of transport mode: preliminary assessment-----	p. 63
Citizens' forum: environmental effects of the Syncrude Project-----	p. 57
*Clarification of wastewater from tar sands processing-----	p. 82
Climate of Alberta with data for Yukon and N.W.T...-----	p. 71
*The climate of Central Canada-Manitoba, Saskatchewan...-----	p. 73
*Climate of the lower Peace River region-----	p. 72
*The Climate of the prairie provinces-----	p. 73
*Climatological and meteorological research needs for the Athabasca tar sands area...-----	p. 71

Climatological station data catalogue - the Prairie Provinces-----	p. 72
Cold Lake-----	p. 92
Cold Lake oil sands: Japanese participation-----	p. 91
*Comments and observations upon the major deficiencies in Syncrude Canada Ltd. environmental impact assessment-----	p. 59
*Commercial plant development soil and foundation engineering-----	p. 45
Community development programs in Alberta...-----	p. 27
Community development services available to Fort McMurray-----	p. 41
*Community, industrial public health, and medical aspects-----	p. 79
The companies involved in the sands-----	p. 6
*The components of the bitumen in Athabasca bituminous sand...-----	p. 87
Computerized analysis of tar sands shown in graphic...-----	p. 6
Continuous air monitoring survey submitted to Alberta Dept. of the Environment...-----	p. 75
Control order served to GCOS on SO ₂ limits-----	p. 74
Cooperative regional climatology study-----	p. 72
Coping with oil sands-----	p. 4
*Coping with the oil sands-----	p. 4
*Cost comparisons between Fort McMurray and new town developments---	p. 31
Costs, technology plague oil sands projects-----	p. 6
*Criteria for the location of off-site services-----	p. 37
Current oil sands production methods gulp and pollute...-----	p. 84
Current status of in situ recovery from tar sands of Alberta-----	p. 84
 *Decision making in the north: oil sands case study-----	p. 6
Delay in tar sands development hinted at by environment minister---	p. 6
Demographic analysis of Alberta C.D. 12 -----	p. 27
*Demographic trends and characteristics in C.D. 12-15,1961-71-----	p. 26
*A description and reserve estimate of the oil sands of Alberta-----	p. 3
Design criteria, considerations, and development of the expanded town of Fort McMurray...-----	p. 36
Details on biggest tar sands investment yet-----	p. 6
*Developing new energy sources: the Syncrude case-----	p. 3,10,11
*The development of the Alberta bituminous sands-----	p. 5
*Dewatering scheme for overburden of G.C.O.S....-----	p. 85
Digging for oil-----	p. 10
Downtown housing complex under construction-----	p. 43
Dyke drainage report released-----	p. 80
Dyke filter drain collection-----	p. 80
 ERCB gives CP the nod for mini-system-----	p. 62
*Ecological baseline report of Athabasca Tar Sands Lease No. 17-----	p. 53
*Economic base - Census Division 12-----	p. 22
*Economic evaluation of Syncrude Project-----	p. 8
Economics key to development-----	p. 7
*The economy of northern Alberta: bibliography-----	p. 2
*Education planning for Northeast Alberta...-----	p. 43
The effect on air quality of the Athabasca synthetic crude plants--	p. 75
* Emerging North American oil balances-----	p. 10
*An entomological reconnaissance of Syncrude Lease # 17...-----	p. 56
*Environment Canada comments relating to ... Syncrude environmental impact assessment-----	p. 57
Environment ministers visit Great Canadian Oil Sands-----	p. 7
Environment not the only issue says McMurray Board-----	p. 7
Environment probe begins...-----	p. 57

Environment protection key issue at the Athabasca Oil Sands-----	p. 74
*Environmental effects of the operation of sulphur extraction gas plants...-----	p. 75
Environmental group threatens law suit over Syncrude air emissions-	p. 74
*Environmental impact assessment-----	p. 61
*Environmental impact assessment, Lease 13 mining project...-----	p. 60
*Environmental impact statement matrix: computer program proposal---	p. 56
*Environmental land use controls Alberta energy corridor-----	p. 65
Environmental management in the Cold Lake oil sands-----	p. 92
Environmental monitoring services, chemical survey of the Muskeg River...-----	p. 80
Environmental monitoring services macroinvertebrate survey...-----	p. 55
Environmental planning starts with process development-----	p. 58
Environmental problems in the development of the Fort McMurray Tar Sands-----	p. 62
Environmental research within oil sands area-----	p. 7
*Environmental statement: computer program proposal-----	p. 56
Environmental studies; waterfowl and effluent ponds-----	p. 52
*Environmental study, Amoco Canada Tar Sands Lease...-----	p. 59
*An environmental study of the Athabasca Tar Sands-----	p. 58
*An environmental study of the Athabasca Tar Sands; Supp.working papers-----	p. 58
The escalating cost of oil sands exploitation-----	p. 7
*Establishment and survival of ground cover plantings... Phase I----	p. 90
*Establishment and survival of ground cover plantings... Phase II --	p. 91
*Evolution of pollution abatement technology as applied to the Alberta Oil Sands-----	p. 76
*An examination of urban growth alternatives...-----	p. 23
Excerpts from K. F. Heddon's remarks to shareholders...-----	p. 7
*Executive summary of conclusions and findings (about the Mildred Lake Project)-----	p. 10
Existence of Federal-Alberta Syncrude committee surfaces...-----	p. 74
Expenses soar, taxes leap 40%, Fort McMurray faces insolvency...---	p. 32
Experts study dyke drainage-----	p. 80
*Explanatory notes on new town development schedules contained in Municipal Working Document No. 4-----	p. 31
*Exploratory soil survey of Alberta map sheets 74-M, 74-L, 74-E, and 73-L...-----	p. 50
*Exploratory soil survey of Alberta; maps sheets 84-P, 84-I, and 84-H-	p. 50
*Exploratory soil survey of 84-C, 84-B, 84-A and 74-D-----	p. 50
Exploratory survey of Athabasca and Churchill Rivers...-----	p. 19
Exposure cylinder results-----	p. 76
Exposure cylinder results submitted to Alberta Dept. of the Environment-	p. 76
Facility contract let for in situ research-----	p. 84
Fate of emitted sulphur dioxide-----	p. 75
*Feasibility study of power plant particulate...-----	p. 76
Feds' Syncrude plunge more than mere public relations gesture...---	p. 7
Field guide: field tour Eal-----	p. 33
Field work opens in tar sands-----	p. 57
Final report on the overburden Lease 4...-----	p. 86
Financial structure of water works system...-----	p. 37
First oil sands plant a true pioneer project-----	p. 4
Fisheries investigations of the Muskeg River and Hartley Creek, 1974-	p. 53
*Fishery resources-----	p. 54
Flood protection proposals for McMurray-----	p. 34
*For sale: residential lots...-----	p. 42

Forest cover maps (Fort McMurray area)-----	p. 44
*Forest resources and timber production in Census Division 12...----	p. 45

Fort McMurray, a study of the criminal justice services needs-----	p. 22
Fort McMurray, Alberta, statistical outline-----	p. 33
*The Fort McMurray Area 4 alternative-----	p. 63
Fort McMurray: Area 5 concept-----	p. 35
*Fort McMurray Athabasca Oil Sands development strategy-----	p. 24
Fort McMurray - Boom town of the north -----	p. 32
Fort McMurray community profile-----	p. 32
Fort McMurray general plan, part 1-----	p. 35
Fort McMurray may be fourth largest town in Alberta...-----	p. 33
Fort McMurray; one of Canada's resource frontier towns-----	p. 33
*Fort McMurray overview-----	p. 35
Fort McMurray - preliminary survey on housing conditions-----	p. 42
Fort McMurray programs - 1969-----	p. 41
*Fort McMurray; proposed skeletal plan-----	p. 35
Fort McMurray reaching explosion point-----	p. 30
Fort McMurray recreational centre-----	p. 29
Fort McMurray; the boom has just begun-----	p. 33
*Fort McMurray ungulate survey of the minable portion of the bituminous (tar) sands area. (Number 1)-----	p. 51
*Fort McMurray ungulate survey of the minable portion of the bituminous (tar) sands area. (Number 2)-----	p. 51
*Fort McMurray ungulate survey on township lines-----	p. 51
*Fort McMurray water supply and treatment-----	p. 40
Four point oil sands research-----	p. 84
Fracture phenomena in the Waterways and McMurray Formations...----	p. 20
Frost data 1941-1970-----	p. 72
*Fuels from tar sands-----	p. 12
Full speed ahead at Mildred Lake-----	p. 11
Functions of voluntary associations in a resource frontier community...-	p. 40
*Furbearers -----	p. 54
GCOS at the point of paying own way...-----	p. 8
GCOS charged for causing pollution-----	p. 74
G.C.O.S. clarifies status-----	p. 8
GCOS clean-up progress report (Eco/Log Week)-----	p. 80
GCOS clean-up progress report (Energy Analects)-----	p. 80
GCOS drops waste water plan-----	p. 84
GCOS emission control order issued in Alberta-----	p. 74
GCOS lashed by environment group-----	p. 80
GCOS must recycle water (ECO/Log Week)-----	p. 80
GCOS must recycle water (Energy Analects)-----	p. 80
GCOS operating complex-----	p. 84
GCOS replies to S.T.O.P. allegations-----	p. 58
GCOS shows quarterly profit-----	p. 8
GCOS to clean up SO ₂ emission (Eco/Log Week)-----	p. 75

GCOS to clean up SO ₂ emission (Energy Analects)-----	p. 80
GCOS will present argument for boost in tar sands output-----	p. 8
General engineering report-----	p. 37
The general engineering report for the new town of Fort McMurray---	p. 37
General geology of lower cretaceous heavy oil accumulations...----	p. 21
*General information for potential applicants for loans or grants...-	p. 3
*General notes on materials required...-----	p. 31
*General planning report of the northeastern Alberta Manpower Development Committee...-----	p. 41
Geological and topographical notes on the lower Peace and Athabasca Rivers...-----	p. 19
*Geology and geotechnics - three brief reports-----	p. 21
*Geology and proved in place reserves of the Cold Lake Oil Sands...--	p. 91
*Geology and proved in place reserves of the Peace River Oil Sands...-	p. 91
Geology key in oil recovery-----	p. 20
Geology of Canadian heavy oil sands-----	p. 21
*Geotechnical evaluation, blocks 7,8,11 to 15, Waterways area...----	p. 48
*Geotechnical investigation T.C.L. Developments Ltd.Thickwood Heights subdivision, Fort McMurray, Alberta-----	p. 48
*Geotechnical studies, Area 1, Fort McMurray, Alberta-----	p. 50
Getting rich at Fort McMurray is not as easy as it looks-----	p. 8
Gillespie, Getty talks cast more gloom over dreary oil sands outlook-p.	8
"A good deal for everybody" Imperial's Armstrong-----	p. 8
*Goose and raptor survey, Athabasca River-----	p. 52
Government research-----	p. 85
Governments share project costs, control, benefits-----	p. 8
Grant of \$50,000 awarded to Environment Department-----	p. 57
Great Canadian Oil Patch-----	p. 8
Great Canadian Oil Sands - Canada's largest mining project-----	p. 84
*Great Canadian Oil Sands dyke discharge water-----	p. 79
*Great Canadian Oil Sands dyke discharge water:summary report-----	p. 79
Great Canadian Oil Sands near deadline for preventing drainage...----	p. 81
Great Canadian Oil Sands on-the-job orientation project-----	p. 41
Great Canadian Oil Sands protests high cost of sulfur emission controls-	p. 75
*Great Canadian Oil Sands Tar Island tailings dyke-----	p. 84
Gregoire Park Centre opens at McMurray-----	p. 29
*Ground level plume infringement patterns...-----	p. 77
*Groundwater observation well network: Athabasca Oil Sands area-----	p. 47
*Guide to the Athabasca oil sands area-----	p. 6
*Guidelines for in-situ proposals-----	p. 3
*Guidelines for water sampling at potential townsites-----	p. 37
*The habitat of Syncrude Tar Sands Lease # 17...-----	p. 61
*Harmful small mammals - an unanticipated problem...-----	p. 90
Health hazard forecast at Syncrude-----	p. 75
Heat and mass balance implications for direct coking...-----	p. 85
A heavy hand on heavy oil-----	p. 92
Heavy oil project by Chev Standard-----	p. 92
Heavy oil recovery in the Alberta oil sands-----	p. 11
The heavy oil sands of Alberta-----	p. 17
Heddon says oil price a bargain: annual shareholders meeting-----	p. 9

*The tar sands of Alberta, Canada.....	p. 5
Tar-sands suits against ARCO dismissed.....	p. 16
*The tar sands: Syncrude and the politics of oil.....	p. 5,13,16
Technically speaking, we have started up.....	p. 16
Technology vs economics.....	p. 4
*Temperature and precipitation 1941-1970,(and extremes up to 1970)...	p. 72

Temperature and precipitation-----	p. 72
10 year plan: government-Syncrude pact aimed to increase native jobs-----	p. 42
*Tentative development costs for townsite 9-----	p. 31
*Tentative new town development schedules-----	p. 31
Terrain analysis of bituminous sands lease No. 30-----	p. 48
*Test of a bird deterrent device at a tailings pond...-----	p. 52
Texaco wins approval for oil sands test-----	p. 93
Thematic study of the fur trade...-----	p. 19
There's oil in them there sands!-----	p. 19
Thirty tar sands plants expected...-----	p. 16
Thompson's narrative of his exploration...-----	p. 19
Three preliminary reports on dewatering of G.C.O.S. Lease...-----	p. 86
Time frame for oil sands development...-----	p. 16
*Toward a health care system for Northeast Alberta:...-----	p. 22
*Town of Fort McMurray and tar sands region: (First report)-----	p. 34
*Town of Fort McMurray and tar sands region: (Second report)-----	p. 34
*Townsite study-----	p. 31
*Townsite study: terms of reference-----	p. 30
*Toxicity of GCOS tailing pond dyke discharge-----	p. 79
Transportation corridor study-----	p. 65
*Transportation network alternatives, Scenario One-----	p. 64
*Transportation network alternatives, Scenario Zero-----	p. 64
*Traplines and the social consequences of development-----	p. 28
Treatment of tar sands tailings...-----	p. 79
Treaty Indians play major role in Syncrude Project-----	p. 28
*Trees, shrubs and seedlings planted on G.C.O.S. tailings dyke-----	p. 89
Trial run in August for bucket-wheel excavator-----	p. 88
A trillion barrels of challenges-----	p. 16
20% turnover rate plagues Syncrude...-----	p. 42
Two northeastern college developments announced-----	p. 44
Two studies on Fort McMurray-----	p. 40
Ultrasonics for oil sands?-----	p. 88
*Ungulate survey of map sheets 84G,A, 83P, 73M township lines...-----	p. 52
*The University of Alberta index of oil sands energy research-----	p. 2
*Urban residential land development-----	p. 33
*Utilities networks, Scenario One-----	p. 39
*Utilities statement, Scenario One-----	p. 39
Vague rules, tax uncertainty delay tar sands development-----	p. 16
*Vegetation characteristics in northeastern Alberta-----	p. 44
Vegetation needed for oil sands-----	p. 44
WECO planning heavy oil production-----	p. 93
*Walleye and goldeye fisheries investigations...-----	p. 53
*Water and sewage at Fort McMurray-----	p. 36
*Water problems in Alberta oilsands development-----	p. 46
*Water quality Athabasca River 1971-1972-----	p. 79,81
*Water quality monitoring - Athabasca River-----	p. 82
*Water quality study - Athabasca River-----	p. 80
*Water quality summary Athabasca River 1966-1971-----	p. 80
*Water resources study, sector 1-----	p. 47
Water supply study-----	p. 39
Water treatment plant for tar sands town-----	p. 40
*Water usage and distribution computer model documentation-----	p. 39
*Water usage and resource assessments for the Northeast Alberta Region-----	p. 39

*Waterfowl evaluation of the Athabasca Oil Sands-----	p. 55
*Waterfowl investigations in the Athabasca Tar Sands area-----	p. 55
What impact will Syncrude have on the environment?-----	p. 61
What price tar sands oil?-----	p. 10
Where and what are Alberta oil sands-----	p. 17
William McMurray: The name behind the fort-----	p. 18
*A working document for analysis of regional economic development-----	p. 24
*A working document on agricultural development and the Northeast Alberta Regional Plan-----	p. 24
*A working document on air pollution and the Northeast Alberta Regional Plan-----	p. 74
*A working document on climate...-----	p. 72
*A working document on population projections for the Northeast Alberta Region-----	p. 27
*A working document on reclamation and the Northeast Alberta Regional Plan-	p. 88
*A working document on urban population requirements for the Northeast Alberta Region-----	p. 27
*Working paper on probable hydrological impact of oil sands development	p. 47
Workshop on Reclamation of disturbed lands in Alberta-----	p. 88,90
